# What Makes a Mastertent? Canopy Tent Construction

## Robust, All-Aluminum Design

With a third the weight of steel, our tents use all-aluminum parts for a stronger build from peak to footplate.

## Patented Tensioning System

In extension of our durable frame design, the outside tensioning pieces keep your tent roof looking sharp.

## Smart Corner Clips

Keep rooflines tight and valances smooth with our integrated corner clips - a feature missing from common tents.

## Smooth Set-Up Details

Tent trusses and telescoping legs are equipped with integrated separators to prevent metal-on-metal scraping.

## Frame & Fabric Protection

To avoid wear, we equip rubber caps and PVC fabric reinforcements at all contact zones between frame and roof.

## Pirontex® & Waterproof Fabrics

Get 4x extreme performance across the board with our signature Pirontex® and high-quality waterproof fabrics.

## Certified & Fire-Rated

All of our Mastertent fabrics are certified fire-retardant under industry standard fire and safety codes.

## Wind-Strength Tested

We wind-tunnel test our canopy tents for frame and fabric material strength with performance up to 60mph!

## Your Choice of A-La-Carte Sidewalls Wrap Your Tent in Functional Style

See Sidewalls

Add up to 4 Wall Options to Your 10x10ft Tent | From \$175 per Wall\*

# Endless Customization

## Fabrics, Colors, & Printing

### Premium Fabric Options

Choose from our signature Pirontex® ultra-durable fabric, double-weave Oxford, PVC, and Fiberglass options.

### Vibrant Fabric Colors

Our standard color range is anything but standard. These 13 vibrant fabric colors are ready to make a statement.

### Series 1 Frame Colors

Choose from 9 standard powder-coated colors or from 200+ custom RAL colors for serious durability and style.

### Color-Matched Details

In our ongoing attention to detail, all stitching, trim, and Velcro are color-matched to your tent fabric.

### Heat Transfer Printing

Make your mark with carefully placed logos and graphics. Best for spot logos, text, and branding graphics.

### Dye-Sublimation Printing

Show off with complete edge-to-edge printing! Perfect for custom colors, patterns, and maximum impact.

### In-House Design Services

Our In-House Design Team will design free custom 3D layouts of your tent graphics for you - free of charge.

### Custom Options

As your tent manufacturer, work with us directly to create a custom tent, sidewall, or mobile solution to fit your needs.
