Oxford 500D

Your Benefits

- 5 years manufacturer's warranty on material and production defects
- 2 years warranty on the motor
- high quality materials

Fastening

- For fastening the inflatable with guy ropes and pegs, it has flaps with eyelets.
- Make sure that you place the product on an appropriate, solid surface. The pegs must be firmly anchored in the ground.
- If the ground is too loose (sand, gravel or similar) and no pegs can be attached, 160 kg weights must be placed at each fixing point.
- Only use the product at wind speeds of max. 38 km/h.
